

# Safety, Health, Environmental and Quality Policy

Triplo4 Sustainable Solutions (PTY) Ltd is an enterprise of independent sustainability consultants operating throughout South Africa and is busy expanding its professional services internationally. The Company provides a broad spectrum of sustainable solutions in terms of consulting services and products to public and private clients.

We recognise that business excellence and the long term sustainability of our business is dependent on:

- Sound values, ethics and responsible corporate citizenship;
- Consistently providing quality services and products within the legislative requirements; and
- Our commitment to sustainable development principles comprising social, environmental and economic aspects.

**We are committed to:**

- ✓ Implement internally and promote externally sustainable solutions and practices to reduce resource consumption and waste generation, enhance biodiversity and maximize socio-economic benefits;
- ✓ strive to comply with all applicable compliance requirements and meeting our identified objectives and targets to ensure the effectiveness and efficiency of our Management Systems;
- ✓ Prevent and minimise pollution through the implementation of the waste management principles and hierarchy;
- ✓ Provide resources, training and carry out risk assessments and reviews to ensure that we conduct our work in a safe and responsible manner;
- ✓ Integrate the environmental, safety, health and quality requirements within our managed business processes;
- ✓ Maintain procedures for training and communication to facilitate understanding and commitment to sustainability both internally and externally;
- ✓ Continually assess and improve on practices and systems to ensure the quality of our service and products, the safety and health of our employees and stakeholders and enhance the environmental performance on the aspects within our control and influence.
